EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Charlton Shen on 2/15/2005.

The application has been amended as follows:

Cancel claims 13 and 15.

Claim 12:

Line 1, delete "whereby the steps of contacting at least a portion of the substrate with the purified purge gas, producing a contaminated purge gas, and removing the contaminated purge gas, thereby removes AMC from the substrate at a faster rate than the method using a purge gas consisting essentially of nitrogen gas" and insert —wherein said contacting of said substrate with said purified purge gas removes said AMC from said substrate at a faster rate than using a nitrogen purge gas—

In an interview with Mr. Charlton Shen on 2/15/2005, the examiner discussed cancellation of nonallowable claim 15 and amending dependent claims to correct the 112, second paragraph issues. Agreement was reached to make the changes by examiner's amendment.

The following is an examiner's statement of reasons for allowance: The prior art fails to teach removing of airborne molecular contaminants from a substrate using a purified purge gas comprising water at a concentration of at least about 100 parts per million on a volume basis.
